

Workshop on Limiting the spread of Weapons of Mass Destruction In GCC Countries

Dubai

12-13 March 2012

Jeffrey K. Bates

Deputy Director General of the Customs Operations

Customs and Ports Department

Government of Ras Al Khaimah

The benefits of training to identify dual-use goods:

- 1. Weapons of Mass Destruction impose a real and serious threat.**
- 2. Customs is in a good position to control dual-use goods.**
- 3. The need for a strong and effective control for the borders.**
- 4. Customs staff need to be aware of the latest methods of smuggling.**
- 5. Customs authorities are the inspect to check the goods when imported.**
- 6. Customs authorities are the last to inspect the goods when exported.**

The benefits of training to identify dual-use goods:

- 1. Protection of society - international and local.**
- 2. Increase the confidence and profession of Customs staff.**
- 3. No need for technical expertise to identify dual-use goods.**
- 4. Training is useful and practical to enrich the information of Customs staff.**

Examples of training to identify dual-use goods

Understand the signs of the various hazards – Examples of training to identify dual-use goods
